

Megan Budge

Program: School for International Training

College: Wellesley College

Major: Political Science

Country: India

India has been wonderful. It is such a vibrant country and at times it is very difficult to process. My time here has been invaluable and I have learned so much about India, development, and people in general. Thank you so much for your support. I would not have been able to take on this adventure without the help of the Ashley Soule Conroy Foundation.
